Rubber Hot Water Bottles

Hot mate
Sir Shadiq Ali

Hot Mate Rubber hot water bottles are made of high quality rubber and have earned a world-wide reputation for their outstanding quality and safety.

The production is certified to ISO 9001 and TUV type tested. And manufactured under British standards.

Product with no bonded seams at the neck. Our technically new developed hot water bottle is constructed from a single piece of rubber. The neck piece is now moulded integrally with the bottle walls instead of being bonded. This makes the Deluxe hot water bottle truly one-piece moulded, water tight product.

- Customer's private logo can be embossed.
- 2 years guarantee on material and craftsmanship from the date of invoice.
- The user safety instructions in English language are embossed on one side of both sides plain and single ribbed rubber hot water bottles.
- Each bottle is leak proof tested with air and water.

One Unit

Conventional

CSM

M - Design

One side ribbed

Both sides ribbed

Both sides plain

Different Shapes

Heart Shape
1.65 Litre

With Handle
2.0 Litre

Long Neck
2.0 Litre

A suitable gift as a true symbol of affection and love. Many small hearts are embossed on both sides of the heart shaped hot water bottles. (Can be supplied with embossed massages.)

Covers

Rubber hot water bottles are come with covers. There are several types of covers.

- Contour covers
- Knitted covers
- Soft velour covers
- Plain design
- Heart shaped covers
- With cute animal characters

Hot water bottles and stoppers are in regular colours as red, blue, light blue, grey, orange, light red, green. And can be ordered in special colours as customer requisition.

Neck Collar Hot Water Bottle

This hot water bottle is shaped specifically to warm the neck and shoulder section. Warmth from the neck hot water bottle will activate the heat receptors in the neck and shoulder area relieving internal body pains.

Footwarmer

Feet and ankles are kept warm by resting comfortably on top of a rubber hot water bottle. Footwarmers are made from a soft, plush material and come complete with 2.0 liter rubber hot water bottle.

Bodywarmer

The bodywarmer is flexible, versatile, and ideal to alleviate minor aches and pains. Constructed to provide warmth and comfort to any part of the body. Made from a strong durable fleece fabric. The bodywarmer has an adjustable, sewn-in strap, an integrated extension belt, a velcro sealed flap closure at the top and a zip fastener across the back for easy insertion of the hot water bottle. Comes complete with a 2.0 liter rubber hot water bottle.

Finger Exerciser Ultimate Hand, Wrist & Finger Exerciser

Finger Exerciser is recommended and used by therapists worldwide. It contains dried Natural Rubber. It comes with 2 different sizes and 6 different colours according to their resistance level.

The Beige - Ultra light - and Yellow - Light - Finger Exercisers are designed to provide the fullest range of motion for therapy programs as well as to accommodate Finger Exerciser which require a lower resistance level to achieve full range of motion.

The Red - Medium - and Green - Heavy - Finger Exerciser allows for a moderate range of motion but greater resistance, and is useful for advance rehabilitation as well as hand strengthening.

The Blue - Super heavy - and Black - Ultra heavy - Finger Exercisers provide the most resistance. They are inappropriate for certain exercises that use a heavy weak muscle group (i.e. finger abduction) As with any exercise program, consult your health care professional before starting any exercise program.

Large Finger Exerciser (14" / 356 mm)

| Resistance | Colour | Thickness [mm] | Hardness (shore A) |
|-------------|--------|----------------|--------------------|
| Super Heavy | Black | 2.30-2.50 | 43 |
| Extra Heavy | Blue | 2.30-2.50 | 40 |
| Heavy | Green | 1.60-1.80 | 40 |
| Medium | Red | 1.60-1.80 | 38 |
| Light | Yellow | 1.00-1.20 | 36 |
| Extra Light | Tan | 1.00-1.20 | 36 |

Benefits

- Duplicate virtually all joint actions including flexion, extension, opposition, pronation and supination.
- Both hands can be exercised at once, or a single finger isolated and exercised.
- Resistance can be modified for specific needs by adjusting hand position and or depth of finger insertion.
- Accommodates all hand sizes and strength levels.
- Ideal for people suffering from repetitive motion syndrome.

Small Finger Exerciser (7" / 178 mm)

| Resistance | Colour | Thickness [mm] | Hardness (shore A) |
|------------|--------|----------------|--------------------|
| Heavy | Green | 1.60-1.80 | 40 |
| Medium | Red | 1.00-1.20 | 38 |
| Light | Yellow | 1.00-1.20 | 36 |

Rubber Exercise Bar

Rubber Exercise Bar is made with natural latex and effective at improving pain scores and strength in patients with tennis elbow.... offering a cost-effective treatment that requires no injection or expensive equipment.

- Strengthens Hands, Fingers & Forearms
- Excellent for Joint & Soft Tissue Mobilization
- For Rehab, Stress Release and Sports Training

Available in 3 resistance levels,

- Light Resistance : Orange
10 pounds of force required to bend 90°
- Medium Resistance : Green
15 pounds of force required to bend 90°
- Heavy Resistance : Blue
25 pounds of force required to bend 90°

| Sizes | Diameter (mm) | Length (mm) | Weight (kg) |
|--------|---------------|-------------|---------------|
| Small | 37.50 - 42.50 | 345 - 350 | 0.325 - 0.375 |
| Medium | 42.50 - 47.50 | 345 - 350 | 0.475 - 0.525 |
| Large | 47.50 - 52.50 | 345 - 350 | 0.325 - 0.375 |

| Dimensions | 145 x 61 cm |
| Thickness | 2 mm |
| Material | EVA |

Customized sizes and colours are available.

Safety / Play Tiles

Safety Play Tile is an innovative & environmental friendly product manufactured from recycled tyre material. Designed with durability and comfort. Safety Play Tiles can be used in both outdoor and indoor areas. Easily installed with many colours of choice. This offers a safer alternative for flooring ideas and is ideal for homes or commercial premises.

Applications

- Surfacing of play areas
- Walk ways
- Pool sides
- Landscaping
- Roof gardens
- Animal Stalls (cattle, dogs, horses & etc)

Advantages of Rubber Tiles

- Optimum outdoor weathering resistance.
- Pigmentation with bright and safe material.
- Conforms to recent regulations on playground safety.
- 5 to 20 years life time (depending on ambient conditions).
- Honeycomb Structure gives superior resilience and drainage.

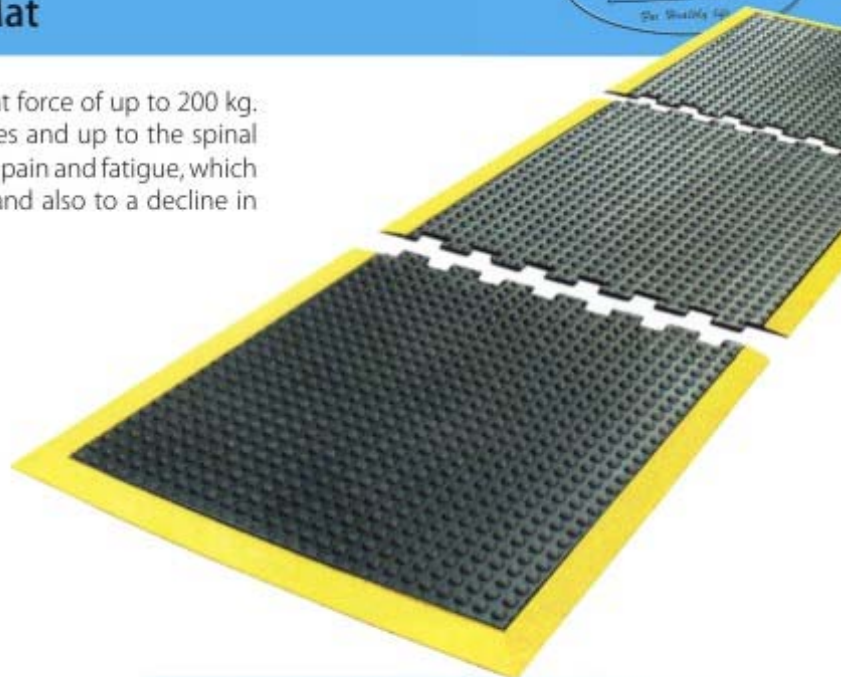

| Size | Thickness | Bottom |
|---------------|-----------|----------------------|
| 1 ft. x 1 ft. | 45 mm | Honeycomb Structured |
| 3 ft. x 3 ft. | 45 mm | Honeycomb Structured |
| 3 ft. x 3 ft. | 25 mm | Plain |

Available in Red, Green, Black & EPDM colours
Custom colours are available upon request.

Sanipa Mat Anti-fatigue Mat

Each footstep during standing or walking releases a weight force of up to 200 kg. This is normally distributed up the heels to the leg muscles and up to the spinal column. To this weight impact, the human body reacts with pain and fatigue, which will eventually lead to spinal column and joint disorders and also to a decline in worker productivity.

Material available

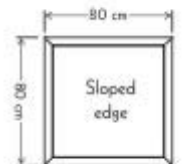

- Natural Rubber**
 Nitrile Rubber resistant to oils and many chemicals, acids and alkalines. Suitable for working places in the food and chemical industry. Tested for fire retardant B1 and suitable for contact with hot metal chips.
- EPDM Rubber** suitable for outside and extreme temperatures. Antistatic properties, Temperature range : -30°C up to +110°C. Anti-fungal

Material Hardness: 38° +/- 3° shore soft impact absorbing system.
 achieve optimal relief from leg strain when standing at work.

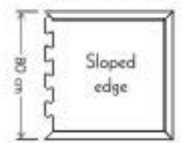

Material Hardness: 58° +/- 3° shore with harder impact absorbing system.
 for work involving standing and walking.

With yellow strip

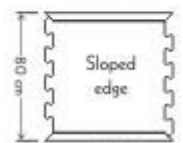

made from yellow vulcanised rubber. provides safety at work places where keeping "inside the lines" is part of good manufacturing practise.

| Weight | Approx. 4.5 kg / mat depending on material |

Sanipa Health Slipper

Reflexology, or zone therapy is an alternative medicine involving the physical act of applying pressure to the feet, hands or ears with specific thumb, finger and hand techniques without the use of oil or lotion.

Through application of pressure on these reflexes the feet being the primary area of application, reflexology relieves tension improves circulation and helps promote the natural function of the related areas of the body.

Based on this principle, "Saneepa" health slipper is produced with scientifically designed bubbles or spheres on the top layer for effect the various touch points of the foot.

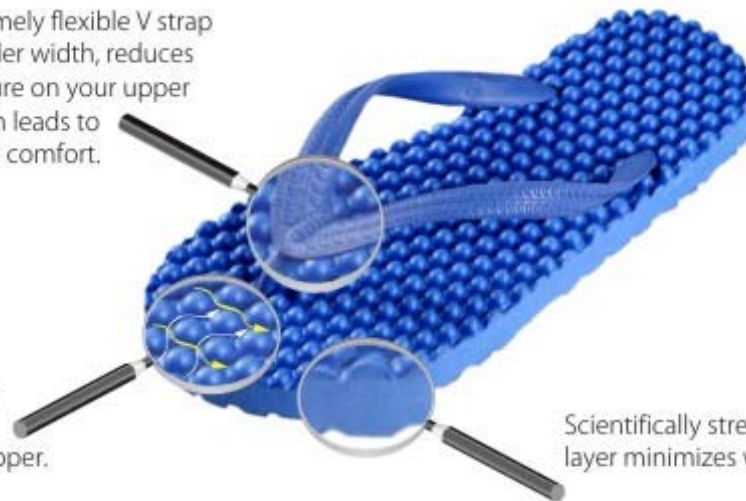

- Available in all European sizes.
- Customized colours

The extremely flexible V strap with a wider width, reduces the pressure on your upper foot which leads to maximum comfort.

The bubbles or spheres on the top layer allow dripping off water without retaining any accumulation on the slipper.

Air circulation through the bubbles or spheres helps to rapidly dry of sweat and moisture off the foot.

Scientifically strengthened top layer minimizes wear and tear.

Highly strengthened bottom layer with specially designed grip reduces abrasions & prevents annoying slip offs.

The more you wear it the more your body will benefit.

- All kinds of Rubber Mats (Industrial, Households, Sports etc.)
 - Rubber Beadings & Profiles
 - Trucking Industry Accessories (Mud Flaps, D-Bumpers, Truck Strings etc.)
 - Garden & Irrigation Hoses
 - Air Hoses, Heater Hoses & Fuel Hoses
